Date: May 27, 2020

Geotechnical Drilling at the Rossland Museum

Trail, BC - Teck will be undertaking geotechnical drilling in the lower bench area of the Rossland Museum from Monday, June 1 through Friday, June 12, 2020. This work is part of Teck's ongoing management of historical mining lands and to support the Rossland Museum's next phases of its Renewal Project. Once the assessment is complete, Teck will determine if any further work will be required.

There will be no traffic disruption on Highway 22/3B during this work.

About Teck Trail Operations

Teck Metals Ltd. Trail Operations represents one of the world's largest fully integrated zinc and lead smelting and refining complexes. Trail's metallurgical operations also produce a variety of precious and specialty metals, chemicals and fertilizer products.
